Your Complete Agricultural Service

Stecher Agricultural Services combines modern machinery and expertise to produce premium quality products and services.

With a family history rich with agricultural experience, we provide an abundance of knowledge to assist you with all your agricultural needs.

Hay and Silage

We provide a complete hay and silage service including:

- Mower conditioner (6.4m with auto steer)
- Mowing
- Super conditioner
- Rotary hay rake
- Round baling with inoculant and net wrap
- Silage wrapping
- Small square baling
- Large square baling
- Hay cartage (45' drop deck semi-trailer)

As suppliers of quality fodder, we have Foddercare accreditation and membership with the Australian Fodder Industry Association. We also market fodder on behalf of our clients.

Fertiliser and Lime

Stecher Agricultural Services are agents for G-lime, Sibelco Lime Products, Impact Fertilisers and DFI Fertiliser. A range of natural fertiliser products and manure are also available.

We offer bulk cartage of all products and two large capacity belt spreaders for large and small acreages. Various early bird and bulk discounts are available on all products and freight.

Cropping

As owner-operators of a cropping operation, we are able to offer our clients a complete cropping service - from planting to marketing. We employ controlled traffic farming methods, which means our equipment is setup to operate on the same tracks, fully utilising GPS application and steering. This means huge savings for our customers.

We also offer:

- On-farm advice
- Controlled traffic farming methods
- Boomspraying-GPS autosteer and 6 section auto-section control (16m, 24m and 27m) - providing accurate application of both chemical and liquid fertilisers
- Direct drilling(8m and 9m airseeder), with ability to use "Variable Rate Technology" and autosteer

- Topdressing
- Harvesting using a late model conventional harvester fitted with autosteer and a 9m front with the ability to harvest all crops in a range of conditions
- Chaser bin, field bins, augers and grain bagger available
- Bulk freight available year round
- Various methods of engagement including share-farming available

Pasture Management

- On farm advice – specialists in fodder crops and pasture improvement programs
- Pasture seed sales
- Soil testing
- Direct drilling (disc and coulter-tine drills)
- Boomspraying (4wd bike and 4wd truck)
- Chemical sales
- Whole farm plans
- Cultivation and land forming
